

# VITA<sup>®</sup> Collection

## 2026 Season

Glatz 

# The best thing that can happen to a ray of sunshine.

Welcome the summer in style with the iconic new VITA Collection from Glatz – three outstanding parasols designed specifically for sun-worshippers with the most refined requirements.

Typical Swiss attention to detail, absolute precision and outstanding craftsmanship combine to create masterpieces that enable you to make your very own dream oasis a reality.

Enjoy unforgettable moments of pure serenity in the shade created by one of our timelessly elegant VITA models. Experience the sunlight, revel in the warmth and appreciate the beauty of summer under the floating parasol roof.

Markus Glatz and the entire Glatz team

Effortlessness  
is the mother of  
all comfort.

The new VITA Collection from Glatz sets new standards for those who want to celebrate the summer in style. Three new models create exclusive outdoor oases – on the patio, in the garden or on the balcony. With these premium parasols, the focus is not on the technology, but on what really counts: exquisite comfort and elegant design – the pinnacle of elevated living.

With a Glatz parasol, you make a statement in understated luxury and joie de vivre. Inspired by tree canopies and designed with harmonious architectural forms in mind – the VITA Piana, VITA Torna and VITA Sfera are the perfect complement to your stylish ambience. And can thus fit your exact requirements.

Create your very own oasis and add a touch of effortlessness to your life.

Whether big, small, square or rectangular, the models in the VITA Collection can adapt to perfectly complement your outdoor space and make a chic statement for sophisticated exterior aesthetics.

The carefully thought-out adjusting mechanism and clear design language of the VITA Piana and VITA Torna models transform your balcony into a stylish stage for your summer.

With its intuitive functionality, robust construction and secure ground anchoring options, the VITA Collection is a stunning addition to lawns of various sizes.

VITA Piana and VITA Torna also meet the rigorous demands of everyday use in the hospitality sector. They can be customised in colour, shape and size and can be combined with other models.

When the sun takes centre stage, Glatz doesn't just open up a parasol – we unfold a masterpiece of Swiss craftsmanship. For over 130 years, we have been manufacturing parasols that are about much more than just shade. Our parasols are a promise. A promise of quality that you can see and feel. A promise of precision down to every last millimetre. A promise of finesse in every stitch and every screw.

Our parasols are the product of craftsmanship – perfectly executed by experts with a passion for their work. This is where tradition meets innovation. The experience and expertise gained through manufacturing countless parasols over the decades enable us to create precision products from modern materials using cutting-edge manufacturing processes today. This is because we constantly strive to find the best solution to meet the needs of our customers.

**Glatz is synonymous with Swiss values: reliability, longevity and a love of perfection.**

Although we may sometimes appear to get lost in the details, that is simply because we work on our designs until we have the perfect solution for a specific task or challenge. Whether that be a retractable crank for the mast, the perfect pattern size for the ideal fabric tension, or a colour palette that truly reflects and represents the high quality requirements of our unique VITA Collection.

We view each of our parasols as an ambassador for our commitment to outstanding quality and the values that we represent. And there are now countless examples of these Swiss ambassadors for summer creating cooling shade across the globe.

The sun has a favourite parasol. And it's made in Switzerland.

# VITA<sup>®</sup> Sfera

The sunshine and warmth of summer awaken a sense of ease and lightness within us.

The VITA Sfera translates this feeling into a uniquely floating, weightless design. The comfort crank allows the parasol to be opened effortlessly as it spreads out like a leaf canopy while the people enjoying its shade take a few moments to savour la dolce vita.

## The aesthete with a floating design

### Canopy in the highest quality

# VITA<sup>®</sup> Torna

A summer get-together with friends or family needs a touch of effortless – including when you unfurl your parasol. That's why the VITA Torna is ergonomically designed in such a way that it can be opened and adjusted in the blink of an eye – wonderfully simple and totally intuitive. Form, function and understated luxury – it isn't often that these aspects combine as clearly and coherently as they do in the shade of a Glatz parasol.

The ergonomically  
complete design purist

# The Glatz Morning Light colour world – pure joie de vivre.

Our Morning Light colour world for the new VITA Collection captures the feeling of a summer morning with a unique colour palette that perfectly complements contemporary design trends.

Let yourself be inspired by this ambience and choose your favourites from a total of 55 different colours – all carefully selected to harmonise wonderfully with each other.

The fabric quality is also guaranteed to meet even your highest expectations. Turn every morning into a feast for the senses.

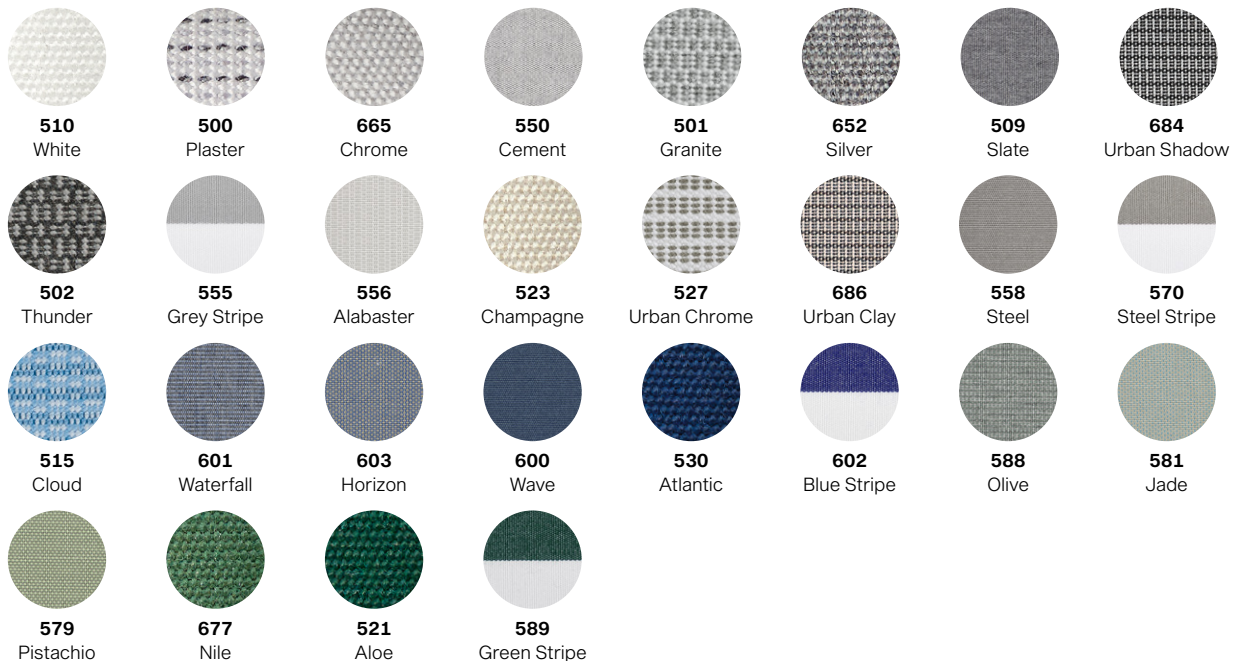

# The fabric that special moments are made of.

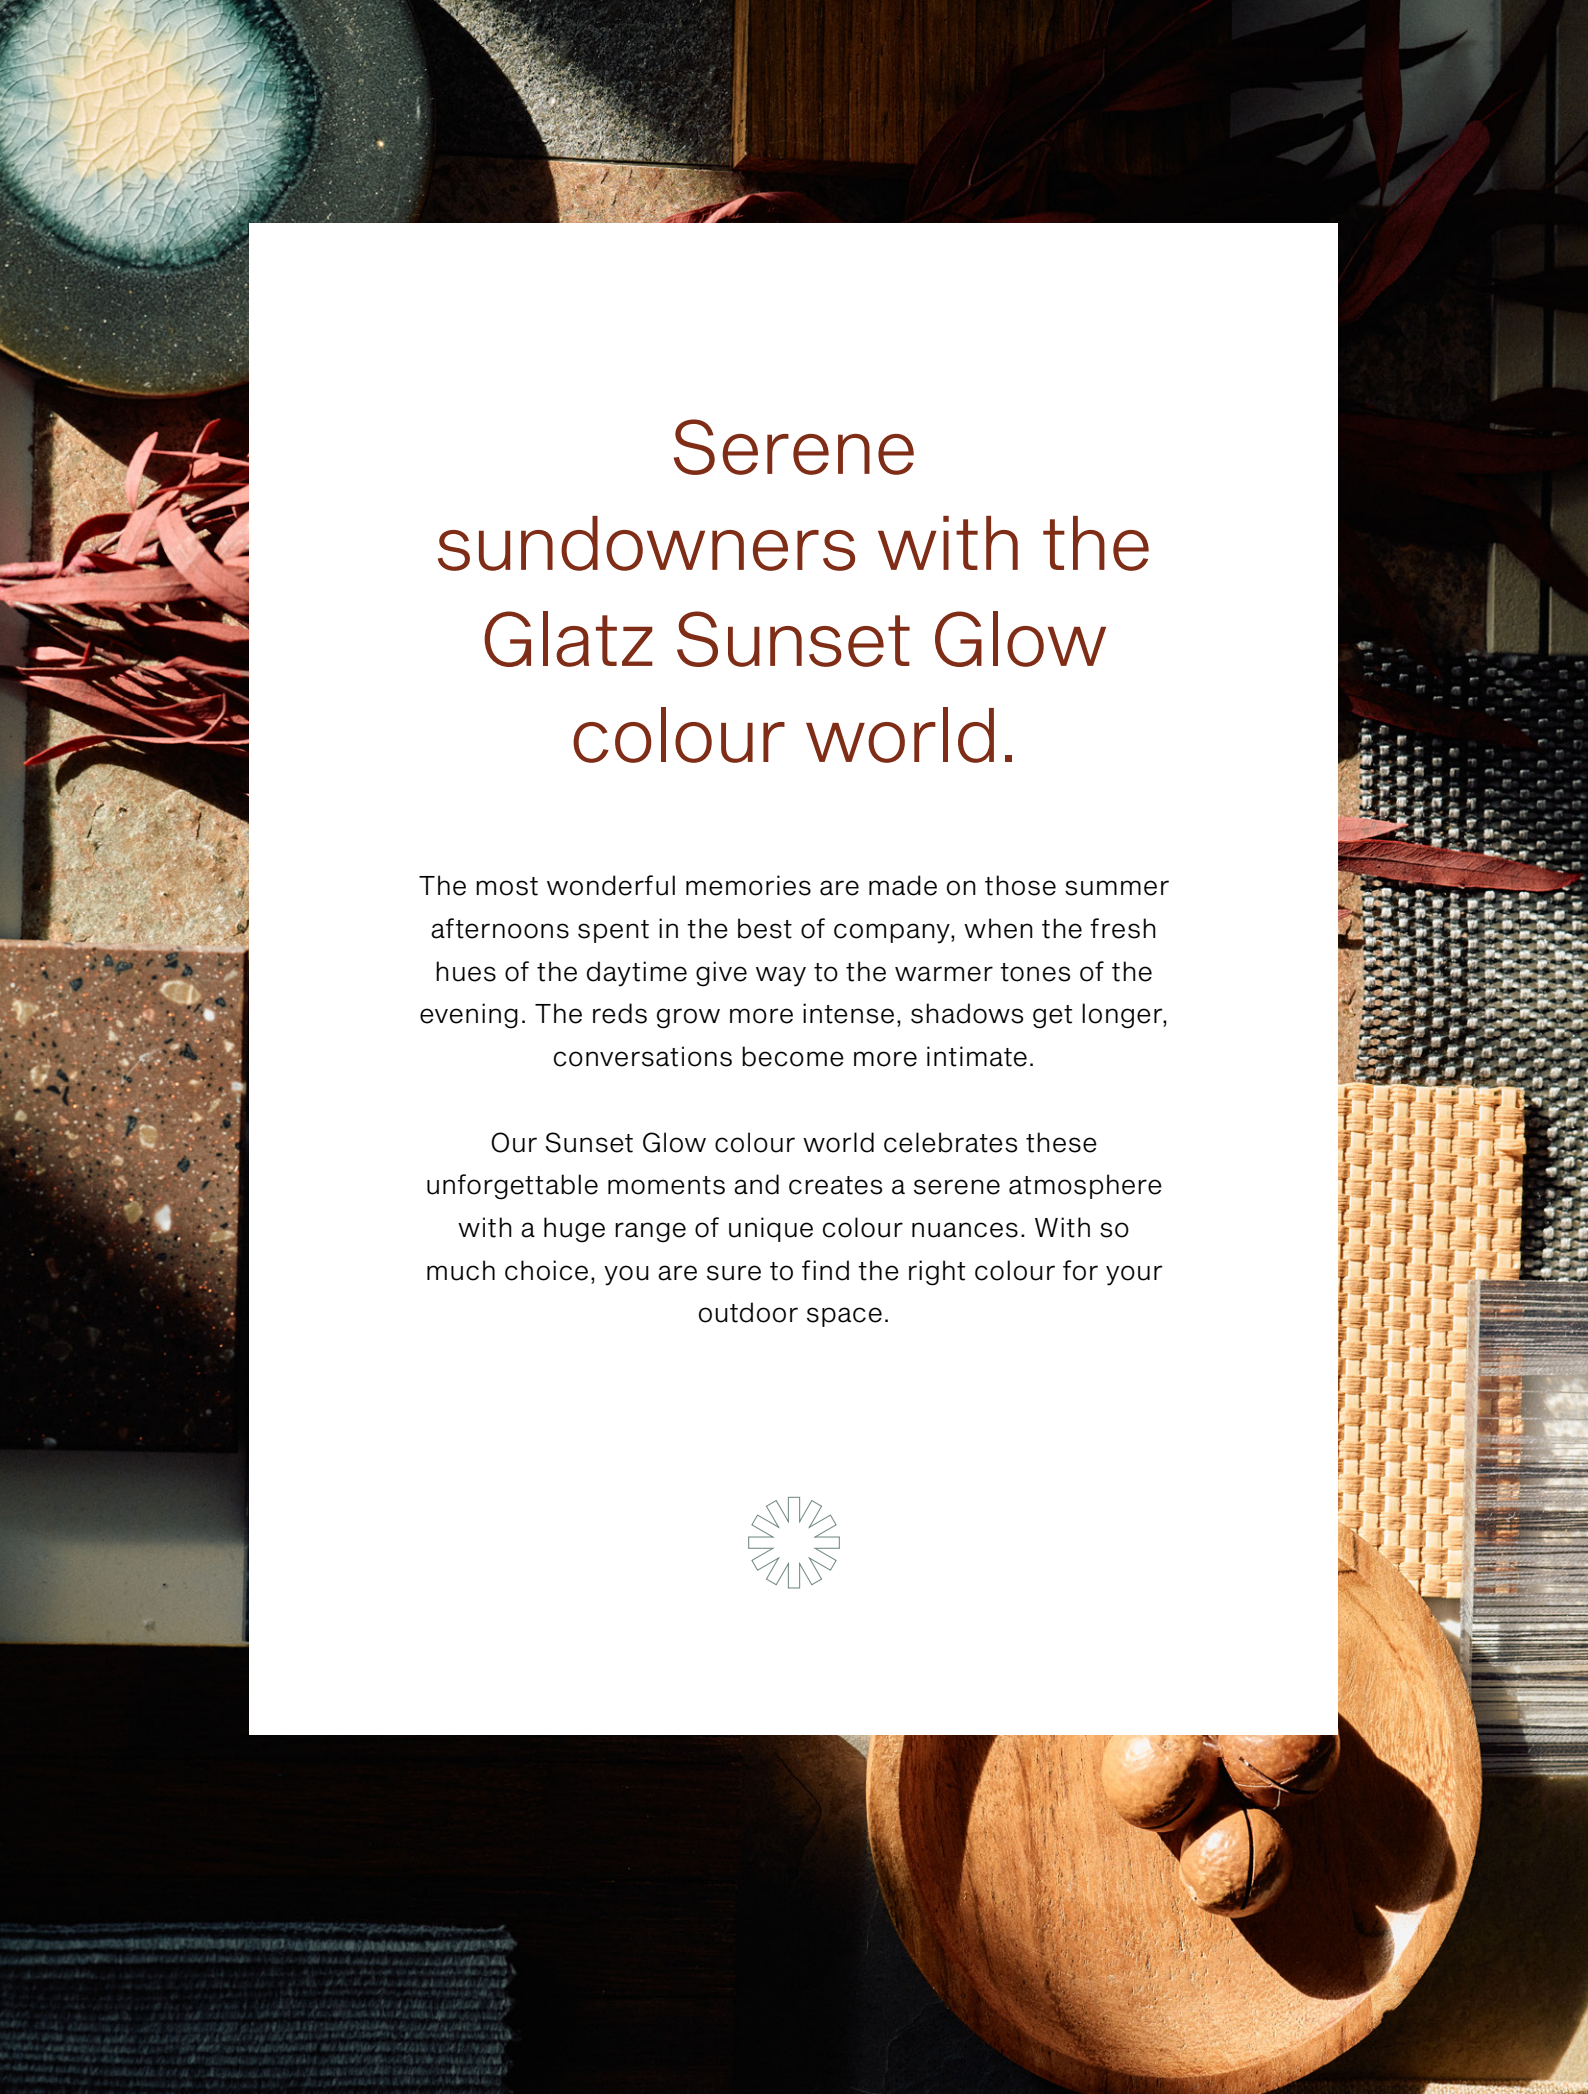

Glatz Morning Light colour world fabrics were designed to bring you joy throughout the summer. These premium fabrics maintain their colour for a long time, refusing to fade even in strong sunlight.

Lasting durability, lasting looks –  
Glatz fabrics are of the highest quality.

Our fabrics of fabric quality 5 have a wonderful premium feel, require little maintenance and are resistant to wind and rain. They block out up to 98% of UV rays, which is equivalent to a sun-protection factor of 50+.

These fabrics are also highly tear-resistant and have excellent water-repellent qualities. One thing is certainly clear: Glatz combines high-quality materials with a refined sense of aesthetics – for parasols that will bring you joy for many a summer.

# Serene sundowners with the Glatz Sunset Glow colour world.

The most wonderful memories are made on those summer afternoons spent in the best of company, when the fresh hues of the daytime give way to the warmer tones of the evening. The reds grow more intense, shadows get longer, conversations become more intimate.

Our Sunset Glow colour world celebrates these unforgettable moments and creates a serene atmosphere with a huge range of unique colour nuances. With so much choice, you are sure to find the right colour for your outdoor space.

## Designed, manufactured and stitched for more than just one summer.

The information mentioned previously in regard to the Morning Light colour world fabrics also applies to the colour and fabric quality of the Sunset Glow colour world fabrics. After all, we want you to enjoy your Glatz parasol for many summers to come – whichever model and colour you choose.

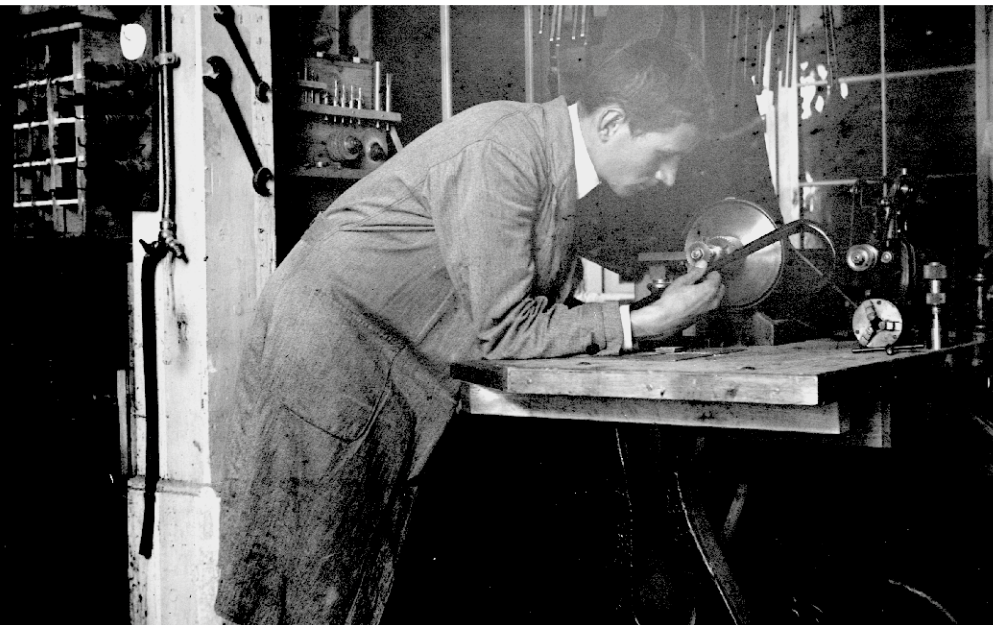

### Unparalleled quality with a range of great advantages.

Fabric quality 5 has a strong, matt look and feel as well as being extremely tear resistant and boasting lightfastness of 7 to 8 (at least 350 to 700 days), which means the colours remain vibrant even after exposure to very strong sunlight. All fabrics offer UV protection that is equivalent to sun-protection factor 50+. They also undergo a treatment process to make them water- and dirt-repellent, further increasing their longevity. And, if you want to get the most out of your Glatz parasol for many years to come, we recommend using the included protective cover.

Four generations,  
one mission:  
the perfect parasol.

# Innovation born of tradition.

What started out as a small parasol-making business established by Albert Glatz in Frauenfeld in 1895 is now – 130 years later – a company that sets international standards for Swiss quality, innovation and design. It is now in the fourth generation of family stewardship under Markus Glatz, who leads it with the same passion and tireless pursuit of perfection as its founder.

The Glatz story is one of pioneering innovation. In 1931, Alexo revolutionised the world of parasols with his newly developed gear joint. The Pendalex – the world's first side-mast parasol – followed in 1959. Innovations like this do not come about merely by chance, but rather are the direct expression of a deeply rooted culture of experimentation and thinking outside the box.

But Glatz refuses to rest on its laurels. With the new innovation centre in Frauenfeld, the company signals its commitment to the future – sustainable, resource-efficient, functional and design-oriented. This is where we create tailor-made parasols that do more than just create shade – they elevate the lifestyles of those with the most discerning standards.

Today, Glatz is much more than a parasol manufacturer. Glatz is an ambassador for Swiss values: precision, reliability and a deep connection to craftsmanship and nature. When the sun shines, people across the globe know that, if you're under a Glatz parasol, you're not just protected from the sun – you are part of a success story that has continued for over 130 years.
